

## *Happy 40<sup>th</sup> anniversary to the Slot Racing Club AMDK Pilsen*

On behalf of European slot racers, I would like to congratulate Slot Racing Club AMDK Pilsen of tremendous work done in the world wide field of Slot Racing. Especially over last decades amount of free time activities have been increased dramatically and more and more easier hobbies have been introduced to the people. Traditionally Slot Racing has been regarded as a sport where good nerves and craft skills have been both needed. When this is compared to the selection of hobbies available today, AMDK Pilsen has showed good ability to meet today's people's needs. New track built several years ago, countless amount of successfully organized international races and racers attending the races all over the world shows that people of AMDK Pilsen have been able to do right things to keep Slot racing interesting sport now and in the future. Will the next 40 years be as successful as last 40 have been!

29<sup>th</sup> of January 2015, Laihia, Finland

The President of ESROC

Mr. Atte Hietalahti
